Srijana Secondary School

Apr, 2017 - Jun, 2019

Grade (3.50 CGPA)

PROJECTS

D-Academe: Decentralized Learning Platform

- Offers live classes and course purchases using Web3 tokens.
- Utilizes Livepeer Studio for secure and interactive streaming.

<https://github.com/brlamit/D-Academe>

Decentralized Commerce Platform

- Built with React and Solidity, integrating blockchain for secure transactions using a custom ERC20 token.
- Features: Wallet management, token purchases, item buying, cart management, and detailed item specifications.

<https://github.com/brlamit/D-Commerce-Site>

Junkyard Management System (JMS)

- .NET-based CRUD desktop application for junkyard inventory, sales tracking and sales management.

https://github.com/brlamit/JMS_Project
